

Dear Congress:I as a citizen and a listener to XM use this service everyday. I think this country has gone too far as to what we as everyday citizens can do. We abide by the laws day in and day out, earn a pay, and yet told we can not listen to weather or sports or traffic on the XM service that we PAY for in our own vehicles. What have we come too? I do not want anything to change. Do not change or force XM to take the weather off the XM service.

Thankyou
US Resident, Citizen
